

Create & Share

Consider how to present the information, create the presentation and deliver the response

Who is my intended audience?

What tools could I use?

How do I share my response?

This step may involve:

- introducing and exploring new digital programs and print options for presenting information
- revising copyright issues if music and images are included in a presentation
- matching audience with presentation formats (eg parents – school website)
- asking for critical feedback prior to publishing
- exploring avenues for sharing work with a wider audience
